PROFILE

Cloud Systems & Infrastructure Administrator with 5+ years managing enterprise Azure, Microsoft 365 and AWS environments supporting 500+ users and 800+ endpoints. Experienced in Entra ID identity governance, Intune modern desktop management, and automation using Power Platform, APIs, and AI-driven workflows. Delivered 98%+ SLA compliance, eliminated manual provisioning through automation, and implemented enterprise security controls aligned with HIPAA and PCI-DSS standards. Currently expanding expertise in Infrastructure-as-Code, cloud-native operations, and AI service management to transition into Cloud Engineering roles.

SKILLS

Identity & Security Management Entra ID, Conditional Access, MFA, RBAC, SSO, SSPR, Access Reviews, DLP, eDiscovery, Security Baselines, HIPAA/PCI Controls	Modern Desktop & Endpoint Management Intune (MDM/MAM), Autopilot, Group Policy, BitLocker, Microsoft Defender, Configuration Profiles, Windows Updates, Device Compliance Policies	Cloud Platforms Microsoft Azure, AWS, Azure Virtual Networks, Azure Resource Management, AWS (EC2, S3, IAM, Lambda), Cloud Governance, Disaster Recovery & Backup Solutions, Exchange Online, SharePoint, Teams, OneDrive, Tenant & License Administration, Microsoft 365 Administration
Scripting & Infrastructure Automation PowerShell, Microsoft Graph API, Azure CLI, Azure Resource Manager (ARM) Templates, Active Directory, Windows Server, DNS, DHCP, VLANs, VPNs, Routing, Firewalls, Infrastructure-as-Code Concepts	Automation & AI Integration Power Platform & Intelligent Automation Power Apps, Power Automate, Microsoft Lists, HTTP API Integrations, Microsoft Service Integrations, Process Orchestration, Workflow Automation, AI-assisted System Analysis, Copilot Integration	Operations & ITSM ServiceNow, Jira, Zendesk, SpiceWorks, SLA Management, Incident Management, Root Cause Analysis, Operational and Infrastructure Support

EMPLOYMENT HISTORY

Cloud & System Administrator <i>Park West Professional Service</i>	08/2021 – Present West Vancouver
- Lead administration and security of 5 Microsoft Entra ID / Microsoft 365 tenants (500+ users), managing identity lifecycle, RBAC, Conditional Access, MFA, and license governance. - Implement and manage 800+ Intune-managed endpoints (Windows, Android, iOS, Autopilot), deploying compliance policies, security baselines, configuration profiles, and update rings to strengthen endpoint posture. - Spearheaded end-to-end automation of IT operations using Power Platform (Power Automate, Power Apps), integrating HTTP APIs with SaaS tools to eliminate 100% of manual onboarding steps, reduce ticket resolution time by 35%, and sustain 98%+ SLA compliance. - Implemented enterprise security and compliance controls including Microsoft Defender, DLP, BitLocker, and eDiscovery aligned with HIPAA/PCI-DSS standards, achieving zero critical compliance findings across all tenants. - Serve as internal escalation point above MSP L1/L2 for complex and recurring issues, coordinating with 4 external partners across onboarding/offboarding, infrastructure changes, and documentation standards to support cross-regional delivery. - Manage Azure resource governance, subscription hygiene, and SharePoint site architecture, permissions, and standards; author post-incident runbooks that reduced recurring issue volume by 25%. - Leverage PowerShell scripting, Azure CLI, and AI-assisted Microsoft 365 integrations to accelerate troubleshooting, automate resolution patterns, and maintain knowledge base documentation across multi-tenant environments.	

EDUCATION

Diploma – Computer Systems & Networking <i>Centennial College</i>	08/2016 Toronto
