## PROFILE

Microsoft 365 & Cloud Systems Administrator with 4+ years of experience managing multi-tenant environments (500+ users, 800+ endpoints). Specialized in Entra ID identity governance, Intune endpoint management, and Power Platform automation, delivering measurable improvements in SLA performance and compliance posture while leveraging AI tools and integrations across Microsoft services.

## SKILLS

|                                                                                                                                                                                          |                                                                                                                                                                                              |                                                                                                                                                                                                                                                                           |
